

Traffic, Safety and Parking Lot Procedures

Parking Lot Safety - Please Drive Safely and Model Respectful Behavior

The safety of students, staff and parents is a top priority. Please remember in our parking lot to:

1. Drive at the posted speed limit while on school property
2. Yield to pedestrians and cars that are trying to park;
3. Refrain from using electronic devices that may distract your attention
4. Bus lanes are for buses **only** at all times

The safety of our students, staff and visitors is our top priority, especially during our busy drop off and pick up times. Thank you to all the parents who have been so respectful and careful driving on our campus. Please take special care when traveling on campus. In addition, please note:

- NO double parking is allowed. Please arrive at the appropriate drop-off & pick-up times and park in the designated parking areas.
- School personnel will cross students safely in crosswalks in the parking lot. Please do not summon your child(ren) to your car via cell phone as they are not safely crossing the parking lot when not in supervised crossing areas.
- There is NO pick-up and/or drop-off at the Mobil station or at the business park across the street. Not only is it unsafe for students but the pedestrian flow is adding additional delays within our parking lot. Police will take action if this practice continues. Please help us be a good neighbor.
- During posted times, there is NO left turn onto route 140 when exiting our parking lot. Buses are the only exception. Please be considerate of all drivers trying to exit our campus and keep the traffic flowing.

Thank you, in advance, for your continued support in protecting our entire school community.

In the event you experience an unsafe situation on our grounds, please contact our [Operations Division](#) which oversees facilities.
